No. 496
Date 6/6/16

Shanghai Municipal Council.

August 5th 1916

Sir,

It was rumoured last evening that some of the persons who were responsible for the big fire in Hankow had arrived here and that they had suggested to discontent ex-revolutionary soldiers in Wunditown to burn and loot the City and Chard. It was said that the latter had agreed to the suggestion and that they decided to start last night. Special precautions were taken in Chinese territory but nothing happened.

It is reported that considerable difference of opinion exists among local republicans and that they are likely to split up into different parties.

General Yang has reinstated four of the detectives whom he dismissed a few weeks ago.

Sun Yat Sen is trying to raise funds to rearmate men who have been in the employment of the rebels in Frenchtown and who are at present without resources.

The Chinese Minister of Justice Chang Shou Tsui and the Parliamentary representative of Yunnan, who are on their way to Peking arrived by the French Mail steamer steamer Athos on 5th. They were met by the Taoylin's representative and went to the Nan Yu Li Kwo Hotel at 184 Haiphong Road.

Your obedient Servt,

Wm. 5/6 0/1
Huanan Liusing

Chief Detective Inspector.
